General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

What's New

EQS Trim Levels

Available in three equipment levels, with streamlined packages and single options, ordering an EQS has never been this easy. Choose from one of three Trims and then select standalone options for each. Design choices, including wheels, paint, and upholstery, are openly available across all three Trims, to be tailored to your customers' tastes.

Please note - nomenclature for the trims of the EQS are not yet final. A Netstar communication will be sent once a cross-carline strategy has been defined.

Trims are selected in the Netstar Ordering Page much like the all-new S-Class. Select your trim level from the drop down menu and the equipment will automatically be added.
